

Defect Report

1. Developer console in chrome have error:

2. There is no error after entering in prompt characters instead of numbers.

- Steps:
- 1) Open html page (with standard link without modifying it, it should be grid 4*4)
 - 2) Fill outer perimeter by clicking on icons:
 - 3) The dialog box should appear
 - 4) Write in input box any character (except of numbers)

Expected result: alert msg should appear

Actual result: initial grid is shown
